Professional Summary

Results-driven Java Developer with 2+ years of hands-on experience in designing, developing, and maintaining scalable web applications. Proficient in Java, Spring Boot, REST APIs, MySQL, and front-end technologies. Strong understanding of OOP, and MVC architecture. Adept at debugging, performance optimization, and collaborating in Agile development environments.

Technical Skills

Languages: Java, C, C++

Frameworks: Spring Boot, Spring MVC, Hibernate, JSP, Servlets

Web Technologies: HTML5, CSS3, JavaScript, Bootstrap

Databases: MySQL, JDBC

APIs: RESTful API, JSON

Tools: Git, Postman, Eclipse, VS Code

Methodologies: Agile, SDLC, MVC Architecture

Soft Skills: Problem-solving, Debugging, Analytical Thinking, Team Collaboration, Time Management

Professional Experience

Software Developer Intern

Mavertech Technologies Pvt Ltd

Feb 2023- Aug 2023

- Assisted in building scalable backend services using **Spring Boot**, **Hibernate**, and **MySQL**.
- Created CRUD operations for managing user profiles and transactions.
- Collaborated with frontend developers to integrate REST APIs.
- Improved application performance by implementing query optimization techniques.
- Deployed services on **Tomcat Server** and handled basic server-side configuration.

Software Developer

Mavertech Technologies Pvt Ltd

Aug 2023 – Present

- Developed scalable web applications using Java, Spring Boot, and REST APIs for client-facing enterprise solutions.
- Engineered backend logic, optimized MySQL queries, and ensured high system availability.
- Designed and integrated RESTful services for user authentication, profile management, and payment processing.
- Participated in Agile sprints for requirements analysis, planning, and sprint reviews.
- Conducted unit testing using JUnit and collaborated with QA teams for bug tracking and resolution.
- Utilized Git for version control and documentation across multiple modules.

Key Project:

Ristamilan Matrimony Platform (Java , Spring Boot, MySQL, REST API's, Spring Security, Hibernate)

- Led Developed backend services using Spring Boot and REST APIs to manage user registration, search filters, and premium features.
- Integrated Razorpay for payment gateway and implemented secure transaction processing.
- Designed matchmaking algorithms and role-based access control for enhanced user experience.
- Achieved a 40% improvement in system performance by optimizing database queries.
- Followed OWASP guidelines to ensure data security and encryption.

Portfolio Website - (Tech Stack : HTML, CSS, JavaScript, EmailJS)

- Developed a fully responsive portfolio website to showcase personal projects and skills.
- Implemented day/night theme toggle using pure JavaScript to enhance user accessibility.
- Integrated EmailJS to allow users to send messages directly via the contact form without backend setup.
- Designed modern UI with CSS animations, transitions, and mobile-first layout.
- Added sections for About, Skills, Projects, and Contact, linking GitHub repositories and live demos.
- Added a “color style switcher” to allow users to change the color dynamically (red, blue, green, purple, pink,etc.)

Education

Bachelor of Technology (B.Tech) – Computer Science & Engineering

Abhinav College of Engineering, Wadwadi (CGPA: 7.74)

July 2018 – Aug 2021

Diploma – Computer Engineering

Abhinav College of Engineering, Wadwadi (Percentage: 72%)

June 2015 – May 2018

SSC

Jyotirling High School, Pawarwadi (Percentage: 82%)

June 2014 – March 2015

Certifications

Java Full Stack Development – Giri’s Tech Hub, Pune | 2022
